fetch_redditads	<i>fetch_redditads</i> A function to fetch Reddit Ads data from the windsor.ai API
-----------------	--

Description

fetch_redditads A function to fetch Reddit Ads data from the windsor.ai API

Usage

```
fetch_redditads(  
  api_key,  
  date_from = NULL,  
  date_to = NULL,  
  fields = c("campaign", "clicks", "spend", "impressions", "date")  
)
```

Arguments

api_key	Your api key to access Windsor.ai API
date_from	The date from which to start getting data in format YYYY-MM-DD
date_to	The date until which to start getting data in format YYYY-MM-DD
fields	he fields fetched from the API for a given connector See https://windsor.ai/api-fields/ for details.

Value

A data frame with the desired data

Examples

```
## Not run:  
my_redditads_data <- fetch_redditads(api_key = "your api key",  
  date_from = "2022-10-01",  
  date_to = "2022-10-02",  
  fields = c("campaign", "clicks",  
    "spend", "impressions", "date"))  
  
## End(Not run)
```

my_redditads_data	<i>Sample of digital marketing data from Reddit Ads downloaded by means of the Windsor.ai API.</i>
-------------------	--

Description

A dataset containing sample Reddit Ads data fetched from windsor.ai API. See more at: <https://windsor.ai/>

Usage

my_redditads_data

Format

A data frame with 164 rows and 5 variables:

campaign name of the campaign

clicks number of clicks

spend spend data

impressions impressions data

date date
